## WHEN ELECTED I WILL...

- ✦ Represent the community in all decision-making processes and ensure that transparency and consultation are part of all Council decisions.
- ✦ Ensure all decisions follow due process and prioritise the needs of the whole community. I will ensure every dollar that is spent delivers the best outcomes for our residents.
- ✦ Deliver high standards of responsiveness and communication and fight to represent residents without fear or favour to ensure the community's voice is heard.

**CANDIDATE FOR NOOSA SHIRE COUNCIL 2024**

## SHIRE-WIDE POLICIES

### WASTE MANAGEMENT

I will advocate to re-start kerbside hard rubbish collection or tip vouchers for residents and offer community not-for-profits four free tip vouchers per year.

### PROTECTING NATIONAL PARKS

I will not support the commercialisation of our National Parks.

### PRIORITISING THE RIGHT SERVICES

Council has lost its way and is not focused enough on projects that improve residents' quality-of-life. I will fight for better roads, cycle and pathways, bus shelters, playgrounds and parks, public toilets and boat ramps.

## LOCAL POLICIES

I will review the budget for **road maintenance** for hinterland roads, and assess its suitability for the increasing numbers of residents who live there, with safety as the first priority.

I will commit to engaging with residents honestly and responsively about the **Kin Kin Quarry** and its impacts on safety, residents' wellbeing and local infrastructure.

I will advocate for improved and increased **public transport** to and from our hinterland towns from business centres including Tewantin and Noosa.
